

## **IN THE SPECIFICATION**

Please cancel the entire specification of the subject U.S. patent application, as filed, including the List of Reference Symbols, as constituted by the verified translation of PCT/EP2005/050182, in favor of the concurrently submitted Substitute Specification. That substitute specification is the result of the entry into the verified translation of a cross-reference to related applications, of a discussion of several prior art documents, as was done in the PCT application, and of suitable section headings; the deletion of the List of Reference Symbols, and of references to the claims; the correction of minor errors in phrasing, punctuation and grammar, and a general revision of the verified translation, to place the substitute specification more in a form in accordance with U.S. practice. These changes do not constitute any new matter. A marked-up copy of the verified translation, which shows the changes made thereto, to arrive at the substitute specification, is enclosed for the Examiner's review.
